

Rhodah Mulera

mulerarhodah@gmail.com — rhodahmulera.vercel.app — Nairobi, Kenya

Profile Summary

Software Engineering student and Frontend Developer with 2+ years of experience in building scalable, cloud-ready web applications using **JavaScript** and **Node.js**. Experienced in developing responsive interfaces, USSD and OTP workflows, and deploying applications to cloud platforms. Proven ability to deliver production-ready software, solve complex problems, and collaborate in research-driven, technology-focused environments.

Education

B.Sc. Mathematics & Computer Science	2023 – 2027
Jomo Kenyatta University of Agriculture and Technology (JKUAT), Nairobi, Kenya	
Frontend Pro Web Development Program	2025 – 2026
ALX Africa, Remote	

Professional Experience

PR Lead & Visual Designer	2025 – Present
Google Developer Student Clubs (GDSC) JKUAT, Nairobi, Kenya	

- Designed digital campaigns and visual content for cloud, AI, and web development workshops, increasing participation by 30%.
- Established brand identity guidelines and managed technical community engagement.

UI/UX Designer & Frontend Developer (Freelance)	2024 – Present, Remote
--	------------------------

- Completed **G-Kash mobile app** project for Girlcode hackathon: developed frontend, USSD integration, and OTP authentication workflows.
- Built responsive and scalable web applications using HTML, CSS, **JavaScript**, and Node.js.
- Deployed cloud-ready applications to platforms like Vercel, ensuring high availability and performance.

Projects & Achievements

- **G-Kash Mobile App:** Completed mobile microfinance app with frontend, USSD, and OTP features; deployed cloud-ready prototype for real-time user interactions.
- **Shoe E-Commerce Platform:** Retail website with dynamic JavaScript filtering, responsive layouts, and cloud deployment via Vercel.
- **Portfolio Website:** React-based user-centered portfolio deployed on the cloud (rhodahmulera.vercel.app).
- Recognition: Winner of multiple Africa's Talking Hackathons (2025); Selected for ALX ProDev Frontend Program (2025).

Skills

Development: JavaScript, Node.js, React, HTML, CSS, Git/GitHub, Vercel, Cloud Deployment, USSD OTP Flows, Frontend Development

Design: UI/UX Design, Figma, Adobe XD, Wireframing, Prototyping, Responsive Design, Design Systems

Soft Skills: Problem Solving, Collaboration, Research-Oriented Thinking, Communication, User-Centered Design
